

Meet Our New Teachers

我們的新老師

Hello! I'm Ms Vinci Ho and I am the new English Language Teacher.

A school is like a family where students and teachers coexist in a supportive environment to achieve the same learning goals. I always feel blessed that the lives of students and myself are intertwined with one another and are mutually enriched through the journey of learning.

Although learning English may always be a challenge to students, students can still brush up on their language skills through participating in educational activities and applying authentic language in natural environment. In this way, students will gradually lose their fear of using English to communicate with others.

Let's work hard, make things happen and explore the joy of learning English!

Hello everyone, I am Mr Lau Ming Hoi, and I teach S4 and S5 Speaking. It is undoubtedly my honour to be accepted as part of the LPY family. We look out for each other and help each other out without hesitation, just like a family would. I really appreciate all the support and guidance from the Principal, Vice Principals and other English teachers. They have shown unconditional support with constructive advice on multiple occasions to help me without criticizing me. The students are charming, kind and keen on learning and they ask questions outside classes. It is nice to see them enjoy their middle school life with activities and events. Keep it up! May you all achieve everything you desire and become anything you want to be.

2022-2023

English Newsletter

"Fun with Stories" 初中故事創作班

I really enjoy myself in Fun with Stories. In this course, Miss Ng teaches us how to read stories.

Fun with Stories is a fun course and we never feel bored in the lessons! I have more opportunities to learn English.

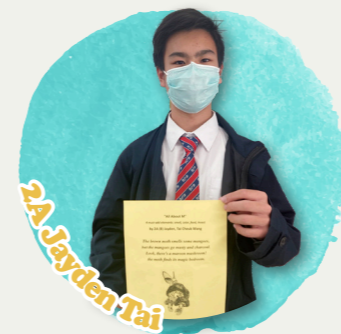

See how focused the students are.

"Fun with Stories" is a weekly afterschool short story adaptation program for our S.1 elite students. Students read short stories and recreate some impressive scenes using storyboardthat.com. To boost students' creativity, they are asked to adopt changes to the original story. For example, changing some parts of the plot and the story's ending. All students have successfully created their own storyboards.

Learning English is fun.

Poetry Circle 2022-23 初中詩歌創作班

I enjoy the creative process and have so much fun!

Thanks Ms Wong for giving us opportunities to learn and create in such a fun and rewarding course!

Poetry Circle is an elite programme tailor-made for keen English learners in junior forms. During the afterschool meetings, students acquired a range of poetic devices, and for their very first time, created poems. Apart from that, young poets also shared the making-of process with peers. Ms Wong, the teacher-in-charge, was amazed by the group's potentials as reflected in their little poetry works. All members got a sense of achievement and satisfaction after finishing their poems.

Halloween Celebration is Back

萬聖節慶祝活動

The event is being promoted in the morning assembly.

Mr. Jack O Lantern is marking the answers for the Crossword Puzzle.

Trick or Treat! We can finally celebrate Halloween since the pandemic! On 31 October 2022, a lunchtime celebration was organized where students dressed up in scary costumes and participated in English games. Crossword Puzzles and Name 5 are the two games students enjoyed the most. Candies were rewarded for winners. Most importantly, they learned different phrases related to the festival in the activity. Overall, it was an amazingly fun and educational day.

To win the game, students need to match 5 Halloween-related words with the pictures.

Valentine's Day Celebration

情人節慶祝活動

We should not hide our gratitude and love.

A Valentine's Day celebration was held on 14 February 2023. Students were invited to write love messages to their friends, teachers or families to express their companionship or affection. They received chocolates for every loved card they completed. This event reminds students the importance of being grateful. It also leaves them a memory of happiness.

It is a memorable and exciting day! The atmosphere is great. I look forward to next year's Valentine's Day!

This Valentine's Day event allows us to deliver our gratitude to teachers which we may not have shown in our daily school life.

Write a card and earn a chocolate.

Ms Yip enjoys the game so much.

Students earn these delicious treats as prizes.

Ms Leung, Ms Chan and the students in scary costumes

All are having great fun.

Ms Fok is thrilled to see students' active participation.

Thanks Mr Lau for organizing the event.
